ABOUT MYSELF

A passionate developer, willing to deliver high-quality software, following design patterns and best practices. Desired to learn new technologies and not be constrained to only one field.

My goal is to deliver business value, while also leveling up my skills.

WHAT I'M LOOKING FOR

- The possibility to work with passionate developers/engineers.
- The opportunity to work on cool projects.
- Having an impact on built products.

SELECTED PROJECTS

Portfolio Site

Personal portfolio showcasing my programming journey in a more visual way.

[Live Preview](#) [Source Code](#)

Candy Catcher Game

A game about catching candies with Halloween motive. Project was made with the help of matter.js physics engine, which controls gravity and handles collision events of falling objects. Halloween theme enhances the visual experience.
